

Jake DiBattista

Fullstack Engineer · React / TypeScript · Real-time & Video Product UIs

St. Petersburg, FL · Remote (USA) jake.a.dibattista@gmail.com [linkedin.com/in/jakedibattista](https://www.linkedin.com/in/jakedibattista) github.com/jakedibattista buddysports.app

Fullstack engineer and product founder shipping production React/TypeScript apps with live media, realtime clients, and clean APIs. Recent work: interactive video capture UIs, WebRTC sessions, signed-URL uploads, and containerized cloud backends as Founder & Lead Engineer at Buddy Sports Tech.

CORE SKILLS

Frontend React, TypeScript, Next.js (App Router), React Native / Expo, Tailwind CSS
Realtime / Video WebRTC, MediaRecorder webcam capture, Firestore listeners, video upload pipelines
APIs & Cloud Node.js handlers, Python/FastAPI, REST, Firebase; GCP Cloud Run + Docker; AWS Cloud Practitioner & AI Practitioner

EXPERIENCE

Founder & Lead Engineer · Buddy Sports Tech Sep 2025 – Present

Puck Buddy (iOS/Android), Buddy Live (web), coaches dashboard, marketing site — end-to-end ownership

- Built **Buddy Live** (React/TypeScript, Next.js): live coaching UI with webcam **MediaRecorder** capture, ElevenLabs **WebRTC** voice, Firestore realtime session state, auto-reconnect (5 attempts), and scorecard dashboards.
- Designed video upload APIs: browser mints short-lived **signed PUT URLs** and uploads directly to cloud storage, fixing 413 failures from multi-MB clips hitting serverless body limits.
- Shipped Dockerized services on **Google Cloud Run** with SSE to the web client; hardened production (reconnect context, instance pinning for session continuity, Sentry/Cloud Trace).
- Led **Puck Buddy** React Native (Expo/TS) app and **Next.js coaches dashboard** on a shared Firebase backend; Android client compression (~720p H.264, ~20 MB from multi-hundred-MB 4K) before upload.
- Grew Puck Buddy to **1,000+ downloads** with ~20 daily active users (Jan 2026).

Design Researcher · Sam’s Club (Walmart) Feb 2022 – Jun 2025

- Partnered with product and engineering on in-club/online experiences; facilitated workshops that shaped roadmaps.
- Engineered the latest iteration of Sam’s Club’s **generative AI customer support** experience, rolled out to 1% of members; designed an in-club tablet navigation/discovery experience.

CEO & Front-End Lead · Youni Nov 2021 – Jan 2023

- Led a team of 9 building a React (Remix) web app with ChatGPT APIs; shipped at 5 universities; DoL XPU showcase finalist.

Earlier · UX Research & Product (Softrams, SuperDVille, drchrono, SimpleVisit) 2016 – 2022

- UX research and product specialist work across healthcare SaaS and education—discovery, accessible design, demos, and launches.

SELECTED PROJECTS

- **Buddy Live** — Real-time voice + video coaching web app (React/TS, WebRTC, Cloud Run) · github.com/jakedibattista/buddy-live
- **Puck Buddy** — AI hockey video analysis (React Native/Expo, TypeScript, Firebase, Cloud Run) · buddysports.app
- **Scout** — Next.js lacrosse scouting MVP with signed-URL GCS video upload and Gemini agents

EDUCATION

B.S., Computer Science — University of Maryland, Baltimore County (UMBC) 2011 – 2015

M.A., Design Leadership — MICA (with Johns Hopkins Carey Business School) 2020 – 2022

AWARDS & CERTIFICATIONS

Grand Prize, Google Cloud × MLB Hackathon — demoed at Google Cloud Next 2025 Developer Keynote

AWS Certified Cloud Practitioner (Dec 2024) · AWS Certified AI Practitioner (Feb 2025)
